About Me

Self-taught and passionate aspiring Web Developer with a strong foundation in front-end development. Skilled in HTML5, CSS3, JavaScript (Vanilla), and Git/GitHub. Familiar with Bootstrap for responsive design. Proven ability to build user-friendly websites and solve problems through code. Eager to grow in a team environment and contribute to real-world projects.

Education

O/L Examination – 2019
Ragala High School, Sri Lanka
Achieved excellent results: 7A, 1B, 1C
Completed:
- Programming with JavaScript –(Coursera)
  Completed structured online course with hands-on exercises and projects to deepen programming knowledge.

Technical Skills

- Languages: HTML5, CSS3, JavaScript (Vanilla JS)
- Tools: Git, GitHub, VS Code
- Frameworks: Bootstrap (Basic)
- Others: Responsive Web Design, Mobile-First Design, GitHub Pages

Projects

1. HTML Resume Website
Built with HTML & CSS

A personal resume built using only HTML to showcase web skills. (Preview available upon request)

2. FreshAura Skincare Landing Page
Built with HTML & CSS

Product landing page for a fictional organic skincare brand. Responsive design with sections for products, features, benefits, reviews, and contact.
Custom image slider and CSS star ratings included.
